

# Raymund Ryan Bermudes

## Solutions Analyst & Enterprise Systems Developer

Cavite, Philippines | raymund.bermudes21@gmail.com | linkedin.com/in/raymundbermudes

### PROFESSIONAL SUMMARY

Results-driven Solutions Analyst and Mobile Developer with **5+ years of experience** delivering enterprise systems, fintech decisioning platforms, and Android applications. Adept at translating complex business requirements into scalable technical solutions, leading API integrations, and driving full system lifecycle delivery from design through production. Experienced in Agile environments with a strong track record of cross-functional collaboration. Seeking an overseas opportunity to bring enterprise-grade technical expertise to global organisations across Europe, the UK, or the US.

### CORE COMPETENCIES

|                         |                                                                                        |
|-------------------------|----------------------------------------------------------------------------------------|
| Enterprise Systems      | Credit decisioning platforms, SDLC, system integration, REST APIs                      |
| Mobile Development      | Android (Java / Kotlin) — feature development, legacy maintenance, production delivery |
| Internal Tooling        | Retool application development for business workflow automation                        |
| API & Integrations      | REST API design, Postman, third-party service integration                              |
| Languages               | Java · Kotlin · C# · JavaScript · PHP · Oracle PL/SQL                                  |
| Process & Collaboration | Agile / Scrum, cross-team coordination (QA, UX, Backend, Product)                      |
| Client Engagement       | Stakeholder demos, end-user training, on-site technical support                        |

### PROFESSIONAL EXPERIENCE

#### Solutions Analyst

GDS Link Asia · Makati, Philippines · Jan 2024 – Present

- Lead end-to-end implementation of enterprise decisioning systems, aligning technical architecture with business analytics requirements.
- Drive delivery of CASE Center policy systems for credit risk and decision automation across fintech clients.
- Build and maintain internal operational tools using **Retool**, improving workflow efficiency and reducing manual overhead.
- Manage REST API integrations and coordinate delivery milestones across Product, QA, and Backend Engineering teams.
- Identify and resolve UI inconsistencies through structured engineering reviews, improving system reliability and user experience.

#### Junior Android Developer

GDS Link Asia · Makati, Philippines · Jul 2022 – Dec 2023

- Developed and maintained production Android applications using **Java and Kotlin** within enterprise-grade environments.
- Implemented new features in complex legacy systems while preserving stability, performance, and backward compatibility.
- Collaborated with UI/UX, QA, and Backend teams within Agile sprints to deliver reliable, production-ready mobile features.
- Improved application stability through systematic debugging, edge-case handling, and code reviews.
- Contributed to continuous delivery workflows, supporting regular release cycles and hotfix deployments.

#### System Specialist

MCS Ventures · Bacoor, Cavite, Philippines · 2019 – 2021

- Served as an all-around enterprise systems developer managing full SDLC using **C#, Java, and Oracle PL/SQL**.
- Provided on-site client technical support including installation, troubleshooting, and live issue resolution.
- Led production deployments and system updates with a focus on zero-downtime releases and operational stability.
- Conducted system demonstrations and training sessions for clients and end-users to drive adoption and proficiency.
- Acted as escalation point for critical incidents, ensuring timely resolution and high client satisfaction.
- Mentored junior staff on system functionality, workflows, and operational best practices.

### IT Field Technician (Internship)

Pipol Broadband & Telecommunication Corp. · Bacoor, Cavite, Philippines · 2018 – 2019

- Delivered technical support across multiple sites including installation, troubleshooting, and preventive maintenance of IT infrastructure.

## EDUCATION

---

### Bachelor of Science in Information Technology

Cavite State University · 2015 – 2019
